Chief, Supplementary Programs Division, OC

Chief, Engineering Division, OC

Minutes of meeting, Contract NO-915A, Marine Crystal Video Systems

1. Transmitted herewith are two (2) copies of minutes of the meeting between [redacted] of this Division and representatives of the contractor.

25X1

2. During the course of the discussions, the problem of CW detection with transistorized crystal video was dealt with at some length. It is generally recognized that there has been relatively little research in this particular field. No known transistorized systems are currently in production with [redacted] and because of this, the desirability of initiating a study program was discussed.

25X1

3. As will be noted by paragraph four of the attached minutes, [redacted] interpreted this as a desire on our part to have them submit a proposal for such a study. However, it is not our intention to request such a proposal of the [redacted] unless we are requested to do so by your Division.

25X1

25X1

4. If you desire to initiate such a study program, please advise.
